

Follifoot Farm Series 3

Information for teachers

Each book in this series is a chapter of the story '*The Snake in the Cave*'. The books need to be read in numerical order because the cliff hanger ending on the last page of each one leads children into the next book.

This means that children can feel good about reading a whole book and be motivated to read another without being overwhelmed by the prospect of having to read them all at the same time.

The phonic focus in these books is on the split-digraphs (or *magic 'e'*) 'a-e', 'i-e', and 'o-e', in words like 'cave, white, stone'. Book 1 introduces only 'a-e'. The rest of the books use all three split-digraphs. The split-digraph 'u-e' is not used in this series.

Soft 'c' and *soft 'g'* are also used in the books.

New high-frequency words include '*does, through, any, anywhere, anything, could, move, somewhere*'.

Title	<i>The Snake in the Cave</i>	No. words
Part 1	<i>The Little Snake</i>	233
