

Follifoot Farm Series 2

Information for teachers

The books in this series are separate parts of the same story. Each book is a chapter of the story entitled *The Cats Who Fell Out of the Car*. The books need to be read in numerical order because the cliff hanger ending on the last page of each one leads children into the next book.

This means that children can feel good about reading a whole book and be motivated into reading another without being overwhelmed by the prospect of having to read them all at the same time

There is only one new vowel grapheme in the whole series. It is 'are' in the word 'scared'.
